Subject: Solar Ponds decision document comment response

Joe: I spoke with Mary Harlow, City of Westminster, on Thursday, June 24, 1999 after the I.A. Strategy focus group meeting. I told her that we had responded to the City of Westminster's comments on the Solar Ponds plume decision document. She said that she was satisfied with RFETS responses to their letter and comments. Thanks, Norma

Subject: Solar Ponds Project

As discussed this morning, I spoke with Gary Kleeman of EPA last Thursday afternoon, June 10, 1999. I told him we had resolved CDPHE's issue with performance monitoring and decision rules in the Solar Ponds Decision Document and that we planned to start the project this week. I asked him if that was all right with him and he said it was.
